ROLEX SYDNEY HOBART YACHT RACE 2017 NOTICE OF RACE

SYDNEY, AUSTRALIA // 26 DECEMBER 2017

ROLEX SYDNEY HOBART YACHT RACE 2017 NOTICE OF RACE

Dear Fellow Sailor,

On behalf of the Cruising Yacht Club of Australia, it is my pleasure to once again invite owners and charterers of eligible boats to participate in the 73rd edition of the Rolex Sydney Hobart Yacht Race.

Acknowledged as one of the top three ocean races in the world, the Rolex Sydney Hobart Yacht Race grows in stature each year as a truly iconic Australian sporting event, with an ever-growing International audience. In 2016 over 30million people across 220 countries watched the race start live, with over 800,000 in mainland China experiencing the race start live for the first time.

In 2017 we welcome back the Clipper race boats to the CYCA before they join us as participants in this year's race.

Each year the race throws out new challenges, however two things remain constant - the excitement and adrenalin rush on the start line on Boxing Day on Sydney Harbour (an experience not to be missed), and the warmth of the welcome at the finish in Hobart.

The Rolex Sydney Hobart Yacht Race will be preceded by the CYCA Trophy, conducted on the waters off Sydney Heads. The racing for the Passage Series (IRC and ORCi), takes place on 9 and 10 December 2017. The Notice of Race for the CYCA Trophy will be published on the official event website later in the year.

On Tuesday, 12 December, the Cruising Yacht Club of Australia's SOLAS Trusts Big Boat Challenge will be held in picturesque Sydney Harbour. This popular invitation-only event is a showcase of the larger boats in the fleet and a great spectacle on the harbour.

In both Sydney and Hobart our Race Villages provide a social meeting point for skippers, crew, families and friends with entertainment, local food, wines and tastings and childrens' activities.

Please diarise the following key, dates with further updates provided through regular Skippers newsletters, our website and via social media .

- Friday 8 December** – Corporate Luncheon – Pre-luncheon drinks to open the 2017 Sydney Race Village with lunch in the CYCA Clubhouse. Guest speaker is 2016 Tattersalls Cup winner Jim Delegat
- Tuesday 12 December** – SOLAS Big Boat Challenge
- Saturday 16 December** – Crew Party – Freya Room – CYCA Clubhouse
- Monday 18 December** – Commodore's Beer and Prawn night - Sydney Race Village - CYCA
- Thursday 21 December** – Official RSHYR 2017 Launch function – Sydney Race Village - CYCA
- Monday 31 December** - Prize Giving in Hobart at 3pm on 31December (NB: change from 11am, 1 January)

The Rolex Sydney Hobart Yacht Race website (<http://rolexsydneyhobart.com>) contains links to the online race entry, berthing, accommodation, travel information and links to websites that may be able to assist with accommodation (deals negotiated by CYCA), and travel arrangements for visiting crews and their families.

We look forward to welcoming you to the Cruising Yacht Club of Australia, Sydney and the Hobart Race Village in December this year.

Yours sincerely,

John Markos
Commodore

General

The requirements specified in this appendix apply to all boats intending to enter regardless of the handicap category in which they intend to enter.

COMPETITORS FOUND TO BE FALSIFYING DOCUMENTATION, DELIBERATELY INVALIDATING CERTIFICATES OR OTHERWISE MISLEADING THE RACE COMMITTEE WITH REGARD TO STABILITY OF THEIR BOAT ARE SUBJECT TO ACTION UNDER RRS 69.1. IF FOUND GUILTY THE PENALTY COULD INCLUDE DISQUALIFICATION FROM THE ROLEX SYDNEY HOBART YACHT RACE. THE INCIDENT WOULD ALSO BE REPORTED TO AUSTRALIAN SAILING.

A determination by the Organising Authority or the Race Committee as to the suitability of supplied documentation in demonstrating a boat's compliance with the stability requirements, as to whether there is a satisfactory margin as required by this appendix or as to a boat's compliance with the stability requirements is final and binding.

All boats - resistance to capsize

A boat shall provide evidence as follows to demonstrate that it achieves not less than:

- an ORCi Stability Index of 115 for the configuration in which the boat proposes to race; or
- International Standard ISO 12217 – 2 Design Category A except that the STIX Number shall be increased to a minimum of 35

Boat holding current, valid ORCi Certificate

A boat with a current, valid ORCi Certificate shall supply that certificate, including the Stability and Hydrostatics Datasheet.

Boat previously holding valid ORCi Certificate

A boat without a current, valid ORCi Certificate but with a previously valid (but not current) such certificate shall supply its most recent previously valid (but not current) certificate, including the Stability and Hydrostatic Datasheet, with a stability index with a satisfactory margin to the Minimum Stability Index for Race Category 1 events for the configuration in which the boat proposes to race, accompanied by a completed

Stability Declaration supplied by the Organising Authority. Special Regulations Appendix B 3.3 shall apply.

Boat achieving ISO 12217-2 Design Category A

A boat with a current, valid certificate demonstrating that it achieves International Standard ISO 12217-2 Design Category A with a STIX value increased to a minimum of 35 shall supply that certificate.

In the calculation of stability data:

- The hydrostatics and stability demonstrating the yacht's compliance with ISO Category A shall be derived from measurement of the freeboards and righting moment of the actual yacht by a qualified source (ie an inclination test)
- Deck and other enclosed volume above the sheerline may be taken into account, in which case offsetting cockpit volume shall also be taken into account.
- Mass shall be taken as Minimum Operating Mass as defined by ISO 12217-2, paragraph 3.5.3
- A GZ curve shall be submitted as part of the ISO statement

In the assessment of ISO category for yachts fitted with moveable and/or variable ballast, ISO 12217-2, paragraph 6.1.4 b) shall not apply. Boats shall comply with paragraphs 6.2.3, 6.3.1 and 6.4. Calculations shall be for the ballast condition that results in the most adverse result when considering each individual stability requirement. ISO 12217-2 Annex C, paragraph C.3.3, first sentence, the word 'may' is replaced with 'shall'. ISO 12217-2 Annex C, paragraph C.3.4 shall not be used in the calculation of righting lever.

Boats with movable or variable ballast

Boat achieving stability by ISO 12217-2 Design Category A

A boat with movable or variable ballast shall provide evidence that it achieves not less than a Knockdown Recovery Factor of 0.9 under International Standard ISO 12217-2, calculated in accordance with ISO 12217-2 paragraph 6.4.4 with the lesser of FKR90 and FKR-90 used. Special Regulations Appendix B 7.2.3 shall apply.

Boat achieving stability by ORCi Certificate

A boat with movable or variable ballast shall provide evidence that it achieves not less than a Ballast Leeward Recovery Index of 0.9. Special Regulations Appendix B 7.1.1 shall apply.

All boats

Other than in the case of a boat that submits a current, valid ORCi Certificate, the Organising Authority may elect to obtain technical advice as to a boat's eligibility and the data and documentation supplied, at the cost of the entrant concerned. The entrant will be consulted prior to this occurring.

Appendix B - Additional Requirements

General

The following requirements add to the requirements of Special Regulations Part 1 for Category 1 Races.

Where Australian standards for safety equipment are specified in the Special Regulations, equipment branded with a recognised equivalent international standard marking may be accepted.

Radios

Installation

Boats shall be capable of transmitting/receiving, as a minimum, on the following frequencies:-

VHF - International Channels 16, 72, 73, 80 and 81

HF/SSB - 4483kHz and 6516kHz and such other frequencies as the Organising Authority may determine

Emergency aerials are required to have their mounting brackets and cabling permanently installed.

Boats shall provide a CYCA Radio Inspection Certificate with the pre-start documentation where a current certificate is not already held by the Organising Authority. The CYCA Radio Inspection Certificate is to be completed by an accredited radio technician to verify the adequacy of the installation and operation of the radios.

Pre-race radio check

Boats shall carry out a radio check on 4483 and 6516kHz between 1 December 2017 and 22 December 2017 with an organisation to be advised to entrants at a later date. Boats that have competed in the 2017 editions of the Cabbage Tree Island Race or Newcastle Bass Island Race with radio communications deemed satisfactory by the Race Committee will be exempt from this.

The organisation conducting the radio checks will monitor these frequencies between 0800 hours and 1800 hours during that period. Radio checks will not be approved outside of these hours.

Boats not recorded as having adequate radio signal strength will not be eligible to start.

Operation

Boats shall maintain a 24 hour listening watch for the duration of their race on VHF Channel 16.

For radio communications, a boat's name may be limited to not more than two words. The Race Committee may alter names where appropriate.

The Sailing Instructions will require that boats report by radio when they are in the vicinity of Green Cape and make a declaration confirming their time of passing as well as the following:

- The HF radio is fully operational
- Liferaft(s) are on board
- Engine and batteries are operational
- Boat and crew are in a satisfactory condition to continue
- The skipper has comprehensively considered the most current weather forecast and the boat and crew are fully prepared for the conditions forecast.

Boats which are not recorded as having met the reporting requirements above shall be disqualified without a hearing (amends RRS 63.1).

Boats that make a false report will be subject to action by the Race Committee in accordance with RRS 60.2(c).
